

Shining Stars Learning Center

"Where every child is a Star!"

Shining Stars Learning Center is a small family owned and operated center. We pride ourselves in having small classroom sizes where each child is a member of the Shining Star family, receiving all the love and care they deserve.

Shining Stars is an exciting and stimulating environment where the emotional, social, physical and intellectual development of young children will flourish. We feel each child is special and unique. We tailor our developmental programs for each child's individual needs. Our goal is to help your child enjoy successful experiences and encourage the joy of learning. Our activity centers allow children to explore and learn at different levels. In our small family environment children gain feelings of love, family, and positive self-worth while becoming active learners through play.

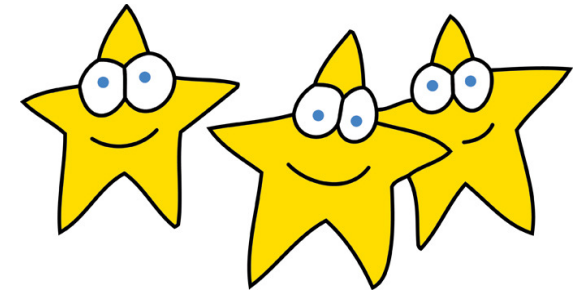

"At Shining Stars learning comes naturally."

Star Programs

Infant Program

Our small infant classroom allows your infant to receive the individual care they deserve. Each child's schedule is tailored to fit their individual needs. Our teachers provide a safe, loving and nurturing environment where cuddling, singing and playing are a part of our everyday practice.

Toddler Program

Our toddler program provides a caring, nurturing and stimulating environment for where your star can explore and develop naturally. In this class their language development, motor and social skills will grow with our teachers support and guidance.

Two's Program

Our two year old program focuses on continuing verbal and cognitive development through music and movement, reading, creative arts, and dramatic play. This is also a time where your star will master the art of toilet training with positive encouragement of our teachers.

Three to Five Programs

Our teachers will encourage your star's social development through cooperative play and sharing. Our classrooms are designed with exciting learning centers that focus on language skills, creative arts, music and movement, dramatic play and science/nature. Large and fine motor skills are practiced with games, manipulatives, sand/water and play ground activities. Your star will develop early literacy utilizing hooked on phonics programs.
